

SUMMARY OF TELEMETERED DATA RELEASED

Below are the details of the released hydrometeorological data:

Type of data: Rainfall Amount (in mm)

River Basin: PASIG MARIKINA TULLAHAN

Station Name	Latitude	Longitude	Period Covered	Data Interval	No. of Rows	No. of Columns
Napindan II	14.55848	121.066597	January 01, 2021 – December 31, 2023	Hourly	21,406	3
Marikina Youth Camp	14.63888	121.091599			23,233	
Valenzuela NHS	14.672812	120.984734			11,475	
Mandaluyong	14.577789	121.033882			20,256	

About the Dataset (CSV Metadata)

NULL – refers to “no data” or “erroneous data” due to defective equipment.

Rainfall Amount - The amount of precipitation (rain, hail, etc.) expressed in millimeters depth of the layer of the water which has fallen.

Date – refers to the date (MM DD YYYY) when the rainfall was recorded.

Time - The time (hh:mm) when the rainfall was recorded.

Value [mm] – refers to the hourly accumulated rainfall amount recorded for a specific hour.
